NOURISHES & SUPPORTS HEALTHY BRAIN FUNCTION

NeuroBright is a patented combination of cognitive support nutrients, traditional herbs and the powerful antioxidant, Microhydrin®. It was formulated by the founder of the RBC Life product line, Clinton Howard, to address the leading health concern of cognitive decline.

Regardless of age, our brain's health affects every aspect of our lives. NeuroBright was created to nourish and support healthy brain function. Herbs such as Rhodiola, Bacopa and Ginkgo have been used for thousands of years to enhance memory and mental performance. We added newly researched ingredients including Resveratrol and Phosphatidylserine to create a modern formula that has demonstrated effectiveness.

Our research shows that Microhydrin acts as a synergist with the cognitive support nutrients found in NeuroBright. It offers protection from free radical damage, which is vital for optimal health. This formula is so impressive, the head researcher who studied it for several months said that, not once in his 25-year tenure in this field, have test subjects improved so dramatically from a natural, safe product.

KEY BENEFITS:

-  ANTIOXIDANTS AND COGNITIVE SUPPORT
-  PATENTED BLEND OF BRAIN SUPPORTIVE NUTRIENTS
-  CELLULAR SUPPORT AND LONGEVITY

HOW TO USE:

For best results, take 2 capsules in the morning and 2 in the evening.
