THE NEXT GENERATION OF STEM CELL SUPPORT NUTRITION

SA-Core is a unique stem cell support formula comprised of natural plant extracts, Vitamin D and a powerful probiotic. It nourishes the bone marrow to support your body's production of circulating stem cells. It also provides the compounds necessary to produce Urolithin A, a metabolite linked with healthy aging and cognitive function.

New research shows that Urolithin A helps us age in the healthiest manor possible. It protects cognitive health while also increasing cellular energy. This compound is produced in the body when Ellagitannins are fermented in our digestive tract by our friendly bacteria. Ellagitannins are found in pomegranate, berries, and grapes.

SA-Core provides standardized extracts of Ellagitannins plus a probiotic to help ensure a healthy gastrointestinal environment. In combination with Vitamin D, this supports your production of both Stem Cells and Urolithin A.

HOW TO USE:

Take 2 capsules daily or as directed by your healthcare professional.

KEY BENEFITS:

- SUPPORTS THE BODY'S REJUVENATION SYSTEM
- SUPPORTS THE BODY'S NATURAL STEM CELL PRODUCTION
- SUPPORTS THE BODY'S PRODUCTION OF UROLITHIN A

KEY INGREDIENTS:
