POWERFUL IMMUNE SUPPORT

TruAloe is the finest aloe juice created by the “Father of Aloe” himself, Founder of the RBC Life product line, Clinton Howard. TruAloe contains organic aloe leaves, carefully processed to ensure you receive the health benefits of this incredible plant. This delicious juice provides powerful support to the immune system and is an excellent tonic for the entire digestive tract.

Aloe vera was used for thousands of years until synthetics began to replace natural remedies. Many homes held on to their prized plants, but we didn’t know what made it effective until Mr. Howard launched the first major research to reveal the chemistry of aloe. This led to the isolation of aloe’s compounds and revealed its numerous healthful properties.

Research shows that Aloe vera possesses immune supportive properties, and the most active are the polysaccharides, particularly acetylated mannans. Reports continue to reveal the health properties of this plant including its ability to enhance absorption of certain nutrients. TruAloe is approved by the International Aloe Science Council who sets the standard for the aloe industry.
