- POWERFUL DAILY DETOXIFICATION
- BROAD-SPECTRUM PROTECTION

HOW TO USE:

For best results, take two capsules twice a day or as recommended by your healthcare professional. Always take with 8 ounces of water.

ANTIOXIDANT DEFENSE

ULTIMATE PROTECTION FROM FREE RADICAL DAMAGE!

Microhydrin Plus® is a research-backed, broad-spectrum antioxidant supplement. It combines our exclusive antioxidant, Microhydrin, with 8 additional antioxidants to give you the ultimate protection from free radical damage. Antioxidants are compounds that stop free radicals from damaging your cells, which is key to keeping your cells healthy so you can enjoy a vibrant life.

Free radicals are unstable compounds that have lost electrons. They damage our health as they steal electrons from vital cells, interfering with their ability to function normally. Our only defense are antioxidants, and consuming a variety of them may help stave off the degenerative issues thought to be caused by free radicals.

Microhydrin provides more electrons than any other product and millions have experienced the profound effect it has had on their health. Studies show we need a variety of antioxidants for optimum protection, which is why Clinton Howard, founder of the RBC Life product line created Microhydrin Plus.
